Note: New vendors and subcontractors must supply all of the required paperwork (Appendix-I, Financial Statement, and 3 Reference Letters), and must register in the Online Representations and Certifications Application (ORCA). In addition, all Vendors must also be registered in the CCR within 48 hours after bid opening or your company may be considered non-responsible.

FV-320

Fruit and Vegetable Programs

Date Issued: July 30, 2007

Miscellaneous Products, Announcement FV-320, Invitation 027

The Department of Agriculture (USDA) invites offers to sell fresh potatoes for processing as indicated below and per the Announcement for donation to the Child Nutrition Program. Offers are due by 1 p.m., Central Time, **Monday, August 13, 2007**. Acceptances will be announced by midnight, August 24, 2007. Deliveries are to be made from September 16, 2007 through September 30, 2007.

Offers are invited from the trade for:

Fresh Potatoes for Processing	Bulk	21,040,000 lbs
-------------------------------	------	----------------

A specification for Fresh Bulk Potatoes for Processing is attached.

No offer will be made to 8(a) vendors on this invitation.

Bids must be submitted electronically via the Domestic Electronic Bid Entry System (DEBES) on the Internet. Offeror must be assigned a Logon ID by USDA to access the site. The Internet address is: <http://pcsd.usda.gov/debes> which translates into a connection of <https://pcsd.usda.gov:3077/mdbc1000.exe>. Once connected, follow the online procedures. A 'HELP' button provides detailed instructions for using the system or call 202-720-4517 for assistance.

Bidders are cautioned to bid only quantities they can reasonably expect to produce and deliver in accordance with the contract. Inquiries about Announcement FV-320, Appendix-1, the Commodity Specification for Miscellaneous Products dated June 2003, or this Invitation should be directed to the Contracting Officer, USDA/AMS/Fruit and Vegetable Programs, Commodity Procurement Branch STOP 0239, 1400 Independence Avenue, S.W., Washington, DC 20250-0239, telephone (202) 720-4517. An electronic version of this invitation can be obtained through the World Wide Web via the Commodity Procurement Home Page at <http://www.ams.usda.gov/cp>.

Purchases will be made on a delivered basis, subject to Announcement FV-320, to the listed locations. Delivery by trucks or railcars is optional to the contractor, except for those destination(s) which specify delivery by truck only or rail only.

Attachment

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

REVISED SPECIFICATIONS FOR POTATOES FOR PROCESSING

1. **Grade-** U.S. No. 2 Potatoes for Processing or better.
2. **Pack –** Bulk
3. **Crop Year -** The potatoes shall be from the current packing season/crop year.
4. **Size -** Whole potatoes shall be specified not less than 1 1/2 inches in diameter (usable pieces not less than 4 ounces in weight). There will be a 3% tolerance for potatoes less than 1 1/2 inches in diameter. Lots shall not contain less than 42% over 6 ounces.
5. **Varieties -** Shepody, Ranger, Umatilla, Alturas and Russett Burbank. Varieties cannot be mixed.
6. **Sugar or sugar end content Criteria:**

No more than 15 % of the potatoes (plugs or slices taken from the sample) are Color 3 or darker in the USDA Color Chart, or comparable scale when fried in 375 degree F oil for 2 minutes 30 seconds, or in 350 degree F oil for 3 minutes. The sample for frying to determine color may be prepared by one of the following methods:

- a. 3/8" X 3/8" center cut strip
- b. 3/4 inch diameter area in the center of the cut face of a 1/4 inch slice made by a transverse cut through the tuber at 1/2 inch from the stem
- c. 2 1/2 inch disc cut from a 5/16 inch slice taken from the middle of 10 potatoes

Lots delivered directly from the field may have the color testing requirements waived at the discretion of the receiver.

7. Specific Gravity Specification:

All varieties 1.075 or higher

8. Defects, Serious Damage and Foreign Material:

No lot should be less than 40% bruise-free.

The method of calculating the term "bruise-free" shall be evaluated for bruising by the Federal or Federal-State Inspector.

Any load of potatoes found to contain broken glass or foreign substance, which may be harmful to health or adulterates the finish product, will be rejected.

Any load of potatoes showing evidence of field frost or freeze will be rejected.

Any load, lot or portion of lot of potatoes delivered may be rejected if potatoes have more any combination of insects and nematode cullage that exceeds 10%.

9. Domestic Product Requirement:

Documentation is required to support the domestic origin of the product.

10. Grading and Inspection:

Inspection must be performed by Federal or Federal-State Inspection Service. Product will be inspected as delivered at destination using one of the following methods:

Sampling Methods:

Samples may be graded individually or aggregated by either of the following:

- a. Each truck load is graded and certified individually.
- b. Grading and certification can include that days run for individual growers and a single days harvesting from the same field for the individual grower constitutes a combined sample.

Sampling may be drawn either by hand or mechanical techniques:

- c. Hand Sampling: Sample obtained by manually passing a tray through the flow of potatoes by a trained and approved sample puller. Sample puller may be a processor employee under the supervision of a Federal-State Inspector.
- d. Mechanical Sampling: Sample obtained mechanically by a trained and approved sample puller. (Federal Inspection Service must approve all mechanical samplers)

Sampling Procedures:

- a. Samples should represent a minimum of one half of 1 percent or greater of the total gross weight.
- b. Sampling is performed by either method a. or b. as identified in the Sampling Method above.
- c. Samples should be taken from the back, middle, and front of the truck as it is unloaded.
- d. If "b" is selected, after the sample is drawn, it is then carefully deposited in a sample bin(s). Each bin holds approximately 1,000 pounds of potatoes. Sample slips/scale tickets bearing pertinent information are either inserted in the bin or attached to the outside of the bin.

- e. If “b” method is selected, sample bins are submitted for grading, where they are individually weighed and handled by machinery and dumped mechanically. This method helps to stabilize the accuracy and helps to eliminate bruises caused by handling of samples.

11. **Invoices and Payment:** Invoices and payment will be accordance with Section X. Invoices and Payment, Announcement FV-320.

12. In addition to the GAP/GHP requirements, all bidders, current and new, are also required to undergo an annual FDSS. (See attached Amendment No. 1 to FV320-CSI).

FV320-CS1

July 26, 2007

AMENDMENT NO. 1

COMMODITY SPECIFICATIONS MISCELLANEOUS PRODUCTS

1. The purpose of this amendment is to incorporate the Good Agricultural Practice (GAP) Verification and the Food Defense System Survey (FDSS) requirements under Section D, Manufacturing Practices, FV320-CS1, Commodity Specifications, as follows:

D. Manufacturing Practices

- 1) Good Agricultural Practices (GAP) and Good Handling Practices (GHP)
- 3) Food Defense System Survey (FDSS)

In addition to the GAP/GHP requirements, all bidders, current and new, are also required to undergo an annual FDSS.

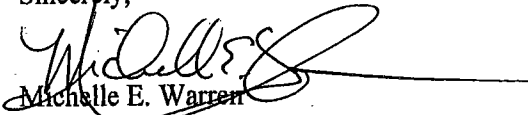

The purpose of conducting a FDSS is to minimize the risk of tampering or other malicious criminal actions against the food under the control of operators of food establishments. Operators of food establishments are encouraged to review their current procedures, controls, and work to mitigate the potential of tampering.

The AMS, Fruits and Vegetable Programs, FPB, will conduct the FDSS. A FDSS may be performed at any processing facility, storage, or offsite warehouse facility handling processed fruits, vegetables and/or related products in accordance with measures identified in the Food and Drug Administration's "Guidance for Industry, Food Producers, Processors, and Transporters: Food Security Preventive Measures Guidance." A successful FDSS demonstrates that a facility meets the Food Defense requirements of the USDA, AMS, Fruit and Vegetable Programs, Commodity Procurement Branch, and other programs requiring FDSS.

The FDSS must be completed within 12 months prior to the award of the contract and no later than 10 days prior to the first day of the contract shipping period for the first load on their contract. Failure to complete within the specified timeframe may result in the contract being terminated for default.

2. All other terms and conditions remain unchanged.

Sincerely,

Michelle E. Warren
Contracting Officer
Commodity Procurement Branch
Fruit and Vegetable Programs
